

EDUCATION

Vanderbilt University, Nashville, TN

August 2023 – May 2027

B.S. Computer Science, B.A. Applied Mathematics | Minors: Human & Organizational Development, Scientific Computing

PROFESSIONAL EXPERIENCE

Pegasystems, Waltham, MA

June 2026 – Present

Technology Architect Intern

- Architected a full-stack AI product that replaced a 40-hour manual infrastructure modeling process with a conversational, guided experience, using Python, ReactJS, and Claude Code with Model Context Protocol (MCP) integrations.
- Built a Python calculation engine that reproduced legacy Excel-based infrastructure logic within 5% accuracy, enabling new AI-powered planning experiences without sacrificing reliability.
- Evaluated four solution paths across product, UX, and technical tradeoffs to shape infrastructure modeling roadmap and inform engineering leadership decisions.

Language and Education Analytics Research Lab, Nashville, TN

September 2024 – Present

Research Assistant, Strategy and Content Manager

- Evaluated AI-generated educational content against quality frameworks, synthesizing findings into recommendations that shaped product, content, and model improvements across 25+ live deployments.
- Partnered with engineers and PhD researchers to scale AI-powered educational software from prototype to institutional deployment.
- Led a redesign of the lab's public website, improving information architecture and navigation for researchers, educators, and external partners.

Handshake AI, Remote

August 2025 – October 2025

MOVE Fellow

- Selected for a competitive fellowship supporting a confidential AI training initiative with a leading global research organization.
- Evaluated AI-generated outputs against detailed quality frameworks, identifying systemic failure patterns and contributing recommendations that improved evaluation consistency across the training pipeline.

Vanderbilt School of Engineering, Nashville, TN

January 2025 – December 2025

Teaching Assistant, CS1101

- Supported 150+ students through technical instruction, debugging guidance, and algorithmic problem-solving in introductory computer science.
- Identified recurring learning bottlenecks and partnered with faculty to redesign instructional resources and support processes.

Transmodal Corporation, Ramsey, NJ

May 2025 – August 2025

Software Engineering Intern

- Designed testing strategies for commercial invoice-validation software used by global importers, ensuring reliability across complex business workflows.
- Built test datasets and edge-case scenarios that uncovered validation failures and improved software quality.

LEADERSHIP EXPERIENCE

Zeta Tau Alpha, Nashville, TN

February 2025 – Present

Director of Fundraising

- Directed fundraising strategy, volunteer leadership, and partner engagement initiatives for chapter-wide philanthropic efforts.
- Led campaigns that raised \$12,000 in a single semester for breast cancer education and awareness programs.

Incentive Spirometer for Tracheostomy Patients

August 2025 – December 2025

Project Lead

- Led a multidisciplinary team through requirements gathering, prototyping, and user testing for a specialized medical device, translating clinical needs into engineering requirements.
- Built and presented a functional prototype, incorporating clinician and engineering feedback to improve usability and design effectiveness.

Read for Those in Need

March 2019 – July 2023

Founder and President

- Founded and scaled a nonprofit distributing 3,000+ books across five public schools to improve literacy access for underserved K-8 students.
- Directed outreach, fundraising, logistics, and volunteer coordination to sustain and grow organizational impact over four years.

SKILLS

Technical: Python • Java • C++ • JavaScript • ReactJS • Git

AI & Emerging Technology: Generative AI • Prompt Engineering • Model Context Protocol (MCP) • AI Evaluation

Product & Strategy: Product Strategy • Requirements Gathering • User-Centered Design • Stakeholder Management

Languages: Spanish (Professional) • Polish (Conversational)
