EDUCATION

Vanderbilt University, Nashville, TN **August 2023 – May 2027**
B.S. Computer Science, **B.A.** Applied Mathematics **Minors:** Human & Organizational Development, Scientific Computing

PROFESSIONAL EXPERIENCE

Pegasystems, Waltham, MA **June 2026 – Present**
Technology Architect Consulting Intern

- Assessed product, user experience, and implementation trade-offs across four solution paths, delivering recommendations that shaped enterprise infrastructure strategy and roadmap decisions.
- Modernized a 40-hour manual enterprise sizing process into an AI-powered experience, converting spreadsheet-driven workflows into guided conversations and interactive applications.
- Translated Excel-based infrastructure logic into reusable Python services, building a calculation engine that produced estimates within 5% of legacy spreadsheet models.
- Built full-stack AI solutions using Python, ReactJS, Git, Claude Code, and Model Context Protocol (MCP) integrations.

Language and Education Analytics Research Lab, Nashville, TN **September 2024 – Present**
Research Assistant, Strategy and Product Manager

- Collaborated with a team of engineers and PhD researchers to scale AI textbook software to 25+ deployments.
- Evaluated AI-generated content and delivered insights that guided iterative model improvements.
- Led the restructuring of the lab's website, improving navigation and usability.

Vanderbilt School of Engineering, Nashville, TN **January 2025 – December 2025**
Teaching Assistant, CS1101

- Supported 150+ students by translating complex algorithmic concepts into clear, actionable steps, improving understanding, and accelerating student progress.
- Identified common learning bottlenecks during office hours and communicated insights to faculty, leading to adjustments to instructional materials.

Handshake AI, Remote **August 2025 – October 2025**
MOVE Fellow

- Selected as a MOVE Fellow to support a confidential AI training initiative with a top global research lab.
- Evaluated webpage outputs against detailed accuracy and clarity rubrics, identifying systemic error patterns and informing rubric refinements.

Transmodal Corporation, Ramsey, NJ **May 2025 – August 2025**
Software QA Intern

- Designed and executed test plans for commercial-invoice validation software used by global importers.
- Built datasets and test scenarios to uncover edge-case failures and improve validation accuracy.
- Delivered weekly QA reports that helped prioritize engineering fixes and clarify evolving requirements.

LEADERSHIP EXPERIENCE

Zeta Tau Alpha, Nashville, TN **February 2025 – Present**
Director of Fundraising

- Directed fundraising strategy and partner engagement for chapter-wide philanthropy, leading campaigns that raised $12,000 in a single semester for breast cancer education programs.

Incentive Spirometer for Tracheostomy Patients **August 2025 – December 2025**
Project Lead

- Led a multidisciplinary team through requirements gathering, prototyping, and user testing to deliver a functional medical device prototype refined through clinician feedback.

Read for Those in Need **March 2019 – July 2023**
Founder & CEO

- Founded and operated a nonprofit improving literacy access for underserved K–8 students, distributing 3,000+ books across 5 public schools.
- Directed outreach, fundraising, logistics, volunteer coordination, and community partnerships over four years.

SKILLS

Technical: Python • Java • C++ • ReactJS • HTML • Git • Kubernetes
AI & Emerging Technology: Generative AI • Prompt Engineering • Model Context Protocol (MCP) • AI Evaluation • Machine Learning
Product & Strategy: Requirements Gathering • User-Centered Design • Stakeholder Management • Technical Documentation
Languages: English (Native) • Spanish (Professional) • Polish (Conversational)
